TERA CLASSIC SERVER

Your journey through time

Return to the year 2013 with the Classic Server and rediscover TERA! The Island of Dawn, alliance wars and brutal dungeon bosses await you!

Bring your loot back to the future

Anything you loot on the Classic Server, you can keep! Craft powerful gear, level up, collect Classic Thalers, and take all your achievements and loot back with you to the current server at the end of it all.

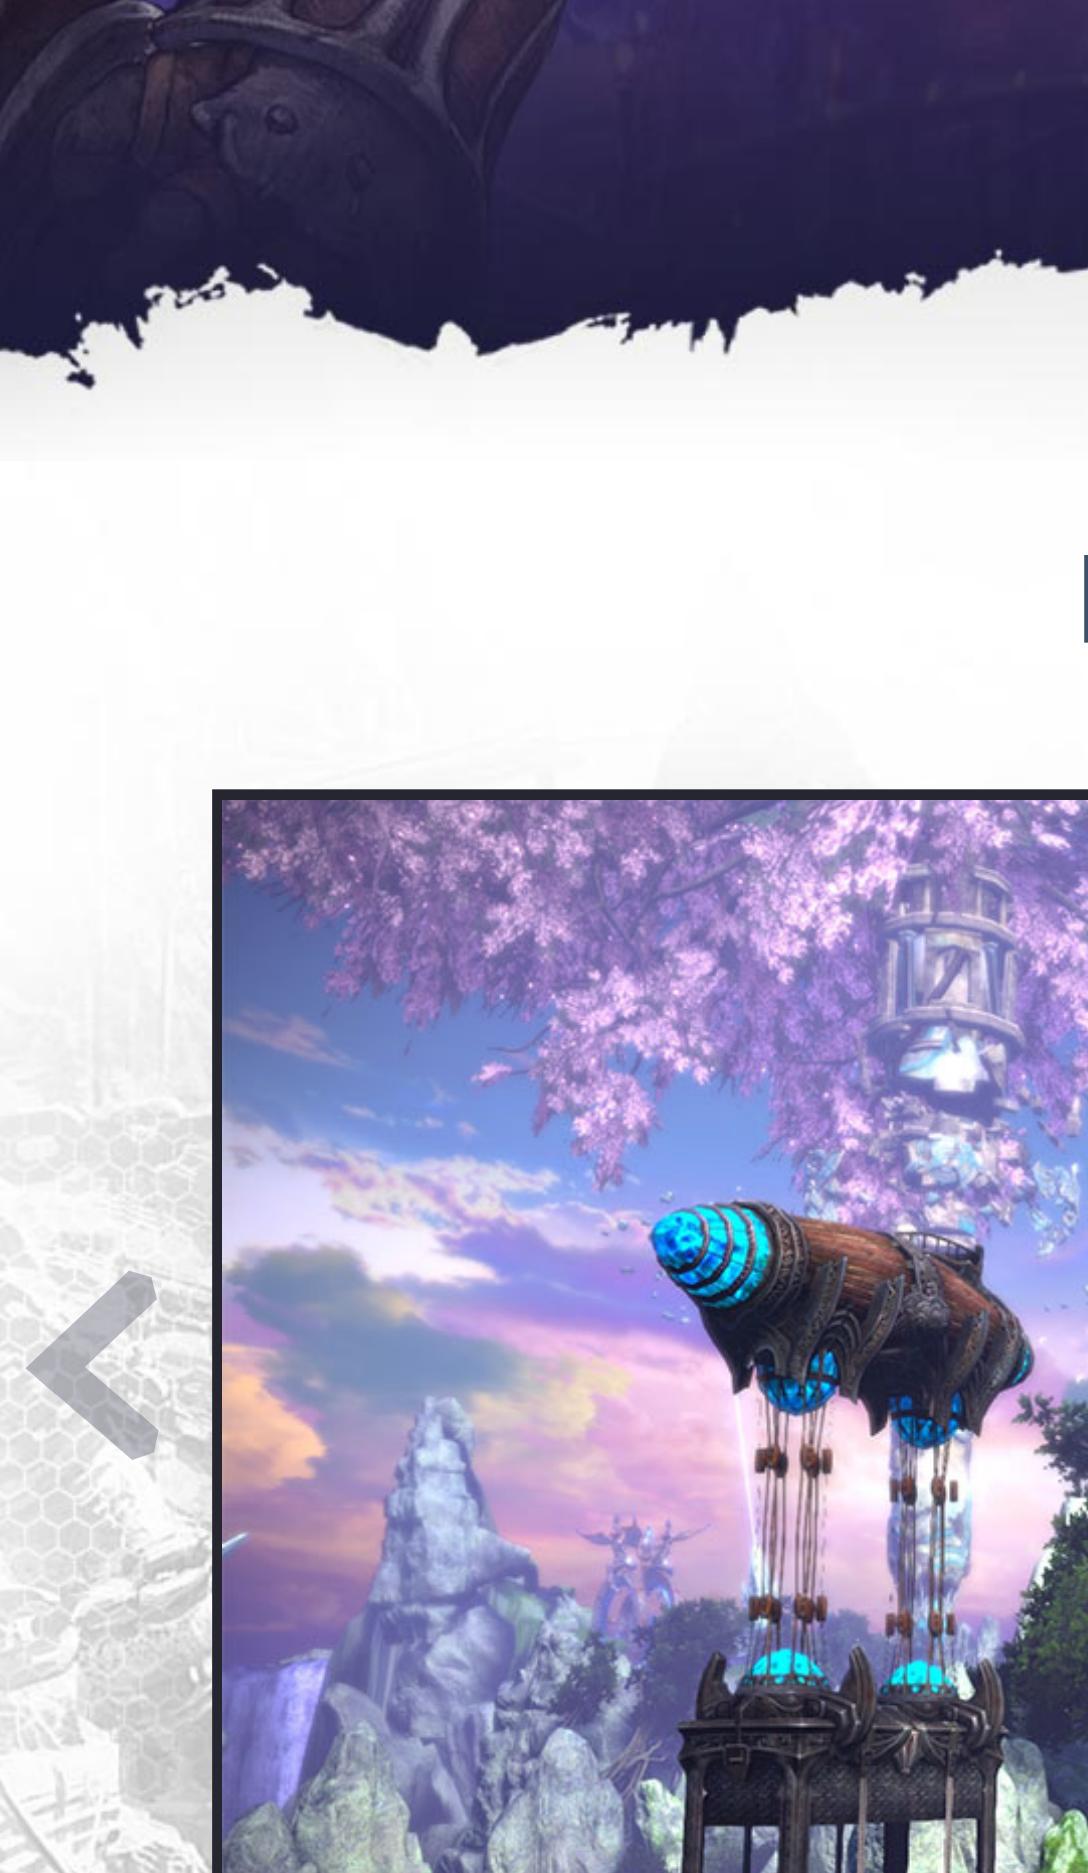

TERA'S GOLDEN AGE

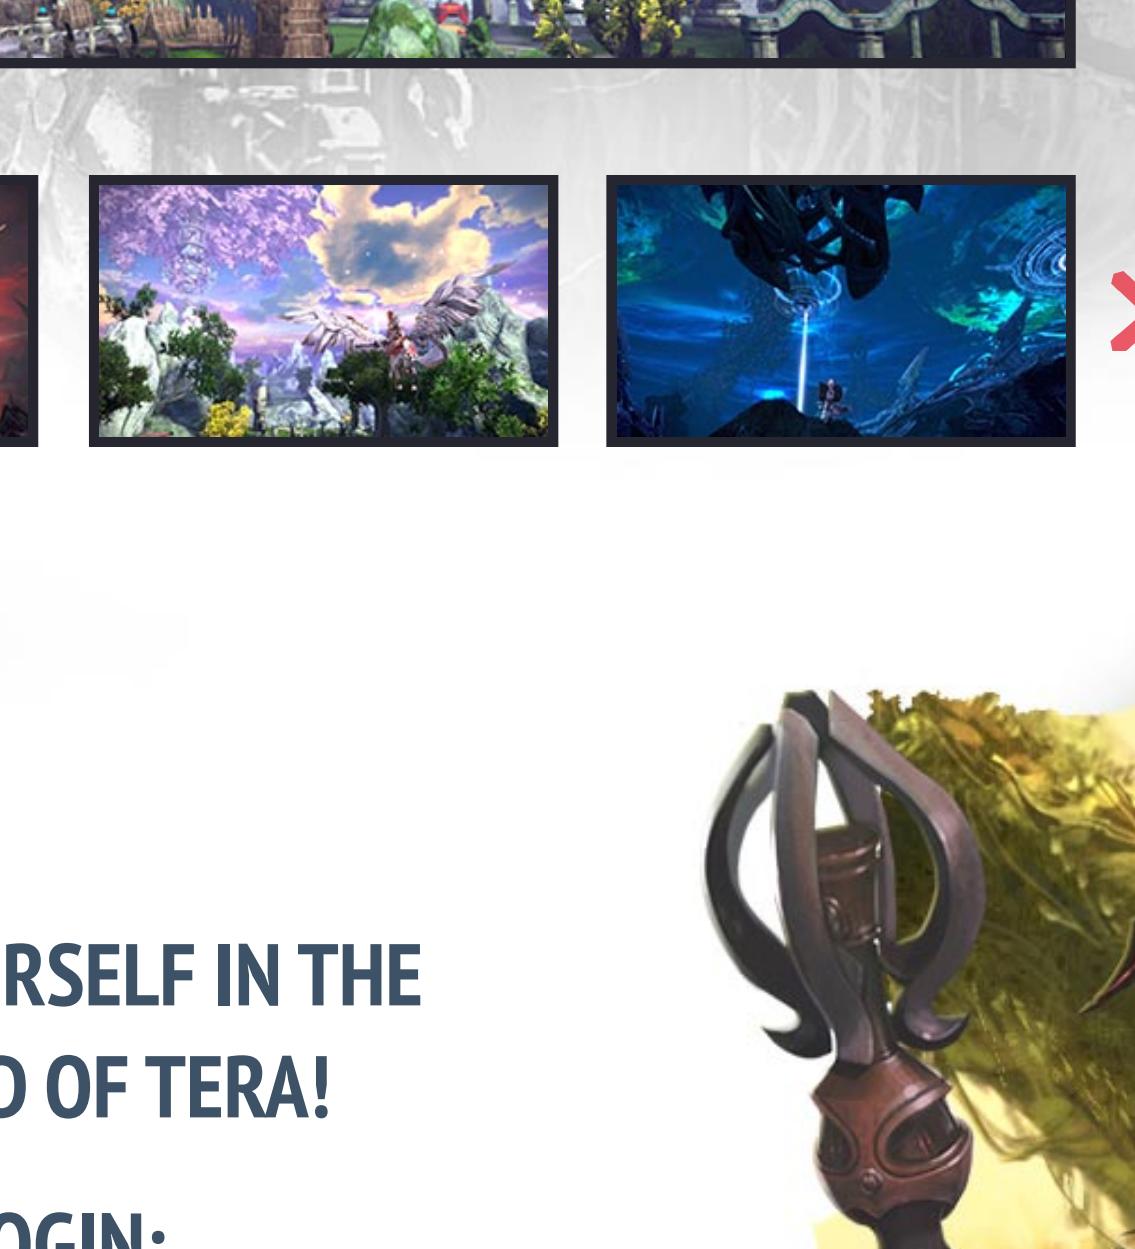

Back to the island

Start your adventure in the former starting area: the Island of Dawn. Fight for the Valkyon Federation – protect the alliance against attacks from without and scheming from within. Complete missions throughout Arborea and level up to level 60!

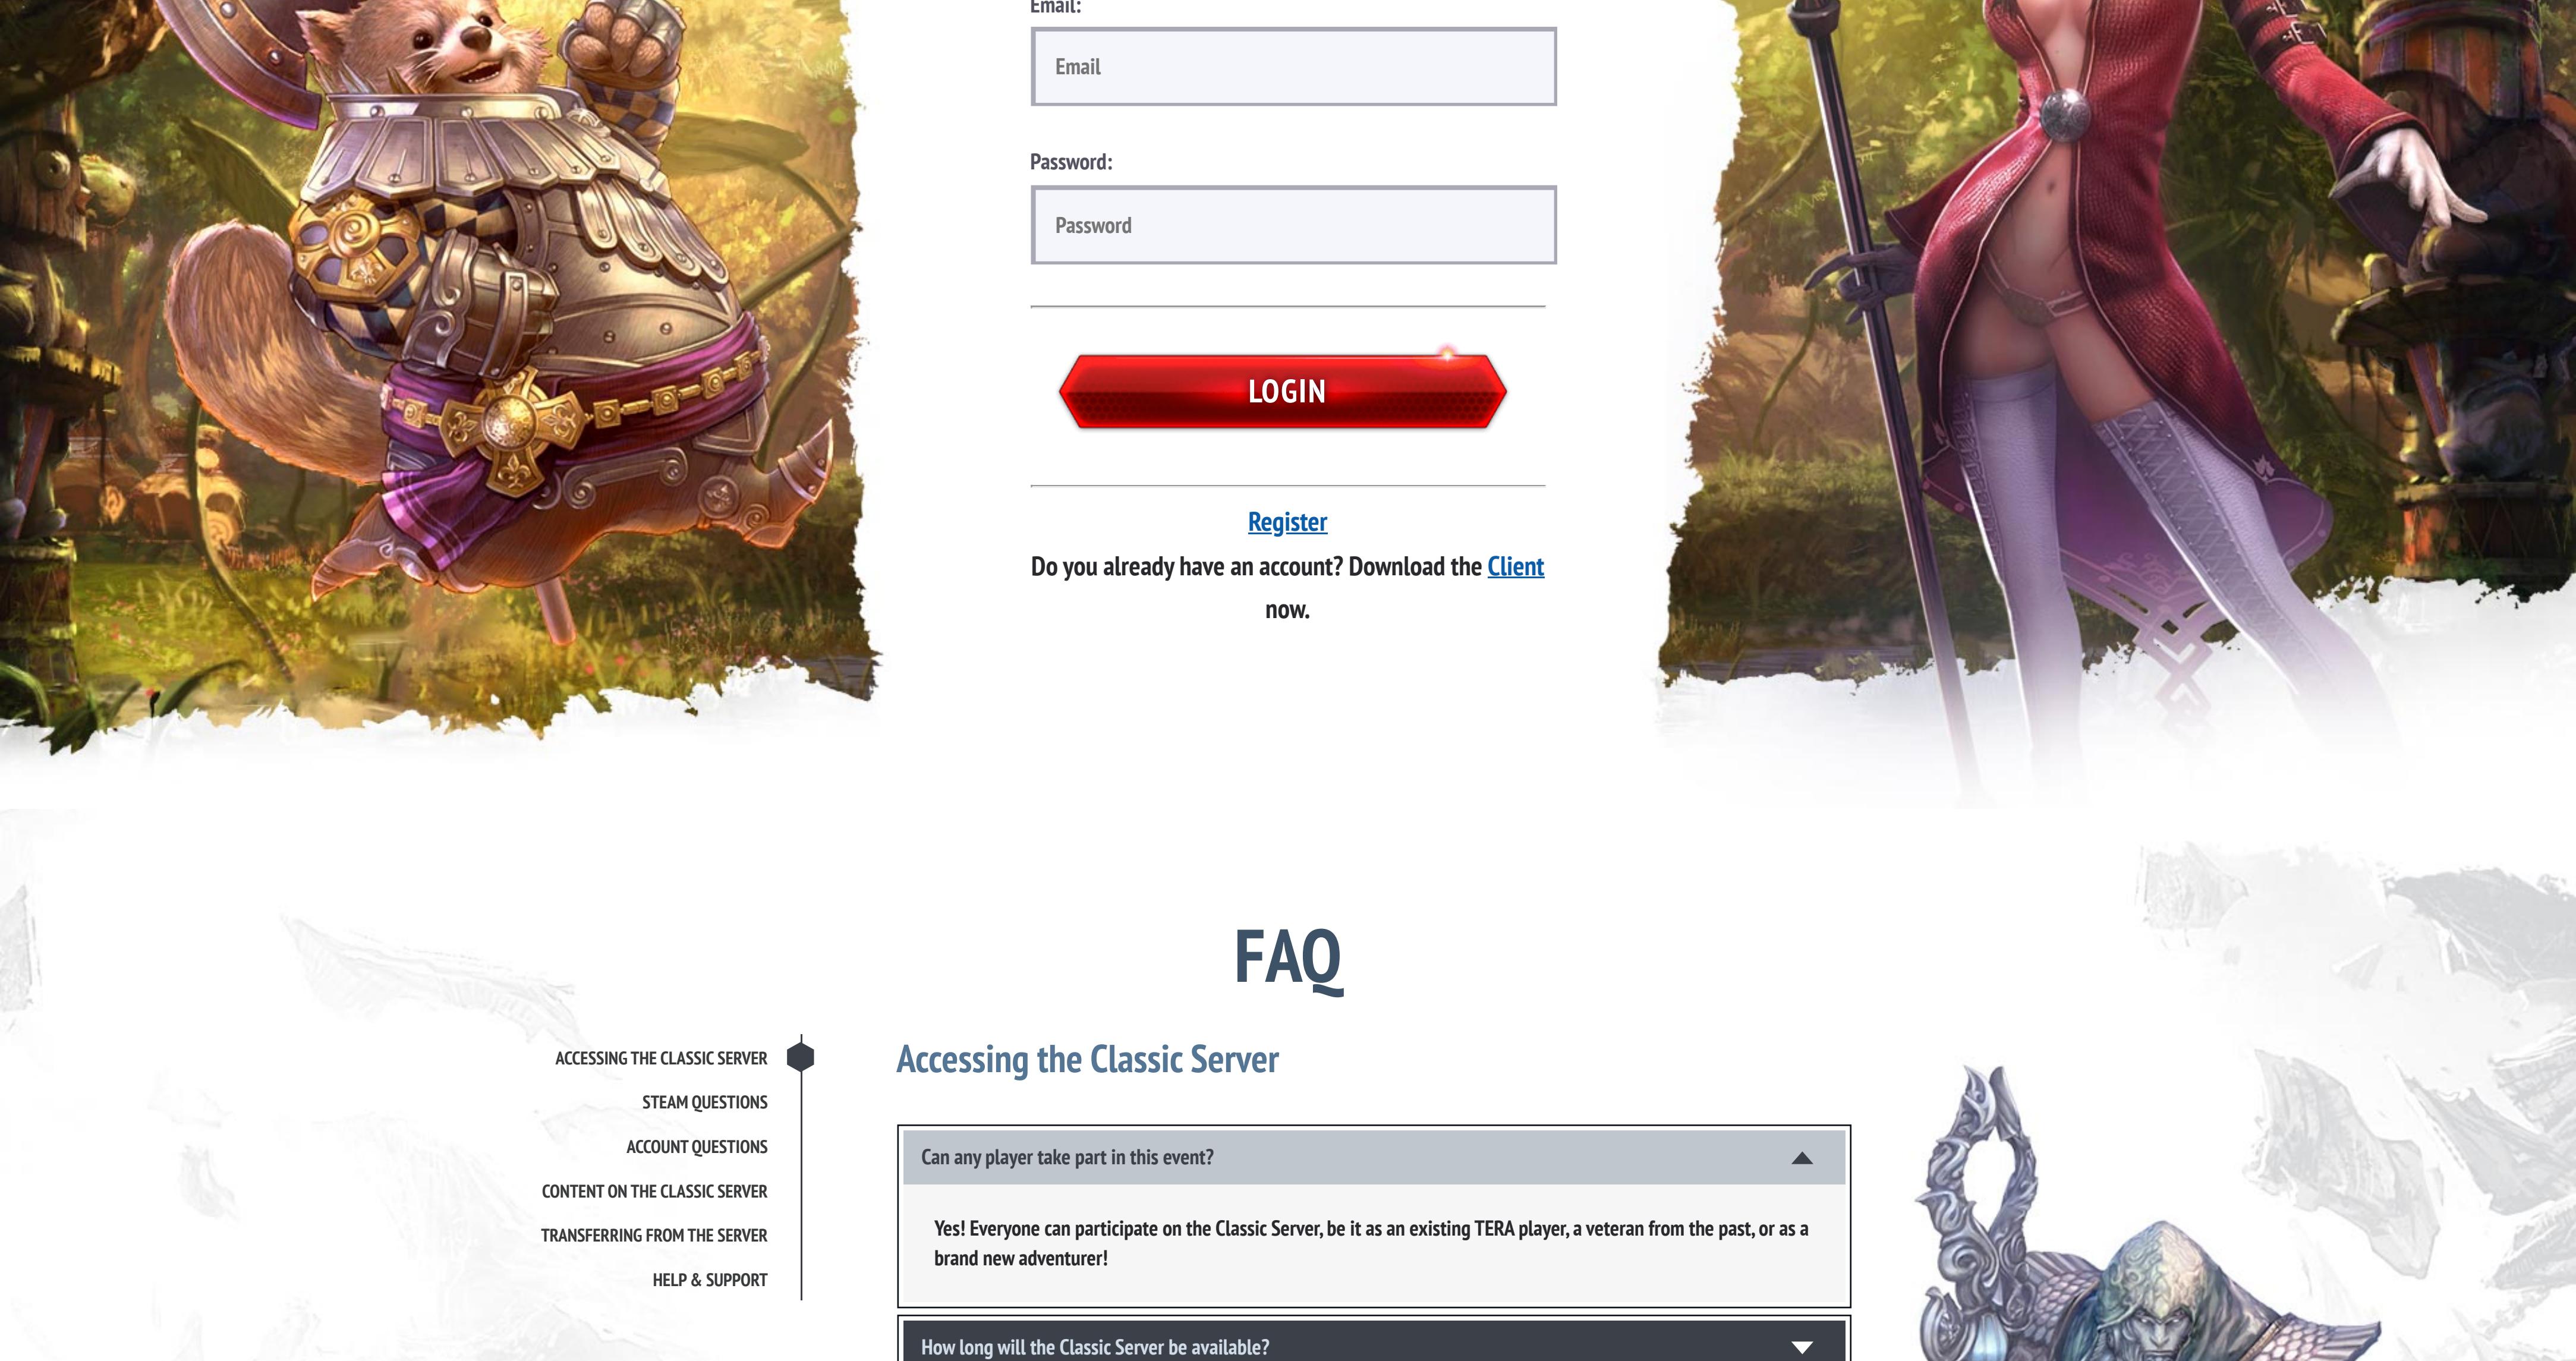

One for all, all for one

Join one of the three alliance factions with your guild and fight for control over the rare noctemum skill booster. Special rewards and access to the alliance vault also await you.

Eight classes with original gameplay

Choose one of the original eight classes for your character: warrior, slayer, lancer, berserker, archer, sorcerer, priest or mystic. If you already have a high-level character, you can also play as a reaper with their own starting area!
